THOROUGHBRED OWNERS AND BREEDERS ASSOCIATION

TOBA (Thoroughbred Owners & Breeders Association) is a voice that represents the horsemen's point of view, a powerful lobbying force that speaks out on your behalf in public and business sectors and at state and federal government hearings. And as more people join TOBA every day, the louder and more influential that voice is becoming.

What has TOBA accomplished?

In recent years, TOBA has been productively involved in the determination of many major issues confronting the racing industry. TOBA was an important factor in defeating undesirable SEC and tax legislation as well as in obtaining desirable legislation restricting interstate betting. TOBA led the fight that achieved parity of purses from OTB and is currently working on the elimination of the Use Tax on horses purchased elsewhere and raced in New York. TOBA has worked for increased horse research funding, founded an international committee to deal with the CEM problem, and developed a model pension plan for backstretch and farm employes.

In short, TOBA has been and continues to be an active and influential voice in the determination of the future of the industry.

Why should you join TOBA?

Racing has become big business, and there are so many diverse interests within and without the industry, that now more than ever, horsemen need a strong national organization to represent them and protect their interests. TOBA is such an organization, and is structured to get the job done. However, to be as effective as possible, TOBA needs the participation and influence of all responsible horsemen.

JOIN TOBA

. . . It's your voice. Make it heard.
